To whom it may concern.

Re: 3 Dimensional Builders Ltd

Trevor and Kate Jull have recently completed construction of our beach house at Omaha. Trevor and Kate were contracted to manage the sub trades and to complete the building construction. We obtained three quotes and elected to go with 3D because of both the price quoted and references.

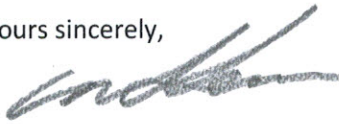

We were very pleased with the way the project progressed. Most of the sub tradesmen were sourced by Trevor and he arranged the timing of their work very effectively. Despite our best efforts we were mostly unable to obtain cheaper or better quotes from subcontractors and suppliers we knew or had used previously.

Trevor's workmanship is great and he is really obliging. We were unable to get him flustered even with the many changes we made to the plan as building progressed.

We have had three houses extensively renovated and another three houses built new for us over the years and we would certainly want Trevor and Kate to build for us again.

Please call me if you wish.

Yours sincerely,
