To Whom It May Concern:

We are writing a letter of recommendation for Trevor Jull of 3D Builders Limited who has recently completed our house at 25 Kokopu St, Omaha.

Over the years we have built several houses but would have to say that Trevor and his team have been the most professional, trustworthy and easy to work with.

From our point of view, Trevor has excellent communication and organisation skills (assisted by Kate Jull) which reflects in his leadership style.

We had several people comment to us on how polite his builders and subcontractors were while onsite and it was clearly noticed by all how organised the site was kept. Trevor chooses his contractors well and we consider work was undertaken with care and thought and with our best interests in mind.

Building anything always comes with its challenges and it was great to know that whenever there were issues, solutions were always at hand and resolved by this very knowledgeable builder.

Our house was completed on time despite building through the winter months, the attention to detail was excellent and we are very pleased with the result.

We would have no hesitation in recommending Trevor Jull of 3D Builders to anyone considering building or renovating.

Please contact us on the above number (evenings) if you would like further information.

Yours faithfully

John & Kathy Weston
